Anything Outdoors You Name It!

A quick and cost effective exterior cleaner used to restore those dangerous Slimy Green and Slippery Black surfaces to looking like new again. Instant results! For the removal & treatment of Algae, Moss, Mould & Mildew around the home.

Simple-Quick-No Fuss
No Pressure Washing

Features & Directions

- ✓Works Quickly in the removal of Algae, Moss, Mould and Mildew. No waiting around for weeks.
- ✓Apply to a dry surface not in direct sunlight, for best results wait 10-20 minutes then hose off. Heavy growth may require some scrubbing with a deck brush.
- ✓If you are doing a large area work a small area at a time working from the lowest point to the highest point.
- ✓If you are cleaning your vinyl siding or any vertical surface start at the bottom and work up to the top.
- ✓Can be used on a variety of outdoor surfaces and situations including wood, paint, terracotta, and plastics.
- ✓Ideal as a wood preparation for paint, varnish and or stain.
- ✓Can be used safely around plants and animals. Flush area with water after use.
- ✓Ready to Use outdoor cleaner will not harm any surface , it only works on the organics it comes in contact with.
- ✓As with any cleaner, the important thing to remember is to flush away with a garden hose.
- ✓It is important to remove any leftover solution which will leave a white powder if left to dry.

How it Works

30 Seconds Ready To Use Outdoor Cleaner is made from a combination of ingredients, with the active ingredient being Sodium Hypochlorite. What happens when you apply the product is that it works immediately on any organics by emulsifying the growth. When rinsed off with a hose the liquid quickly becomes a safe and biodegradable run off that has broken down into a safe saline solution. When the area is rinsed off with a hose the spores and growth are washed away.

How to Apply

This is easy. Simply fill a pressure pump sprayer with 30 Seconds Ready To Use Outdoor Cleaner and spray evenly and thoroughly onto a dry surface. If using on walls, start on the bottom and work up. If the surface has actual growth or is in very bad condition, it may require a light brushing with a broom or scrub brush. Let the 30 Seconds Ready To Use Outdoor Cleaner sit and work it's magic, then simply wash it away. You will be amazed at how easy it is and what great results you can achieve.

**Simple-Quick-No Fuss
No Pressure Washing**
